

# Building High-Speed Rail in Horseheads New York

Horseheads, New York

## Horseheads, NY

Investing in the Southern Tier

# Coming soon

Our new high speed rail production facility in Horseheads, NY is our **newest production location** in the United States.

The first-of-its-kind facility in the United States will produce the American Pioneer 220 which will operate on Brightline West's Las Vegas to Southern California line.

Nearly **\$60 million investment**

**More than 300 jobs** created

Facility will span **more than 300,000 square feet** when fully operational

**Bringing true high-speed rail production to the continent**

## Upskilling the region through valued partnerships

Investing in our workforce, Siemens Mobility has **hired hundreds of workers** in recent years to help meet growing demands for our rail technology. We've also formed **workforce development programs with local community colleges** to help ensure the next generation of talent.

---

Anticipating a strong pipeline of welding jobs over the foreseeable future, we began **working closely with local community colleges to develop specific curriculum** to help ensure that the right levels of welding expertise are available within the local workforce.

---

For example, in California, we have **partnerships with the following local schools and education centers**: Los Rios District of Community Colleges, Charles A. Jones Career and Education center, Sacramento City Unified School District, Elk Grove Unified School District, Sierra College, California Mobility Center (CMC).

# Becoming a supplier with Siemens Mobility

## **Registration & Qualification**

*The supplier registration and qualification process is carried out via our company-wide standardized IT application [SCM STAR](#).*

*Suppliers are first asked to register by providing all relevant data. In addition, all suppliers must commit to complying with our standards and principles for sustainability in the supply chain, as documented in our [Code of Conduct](#).*

*If certain criteria apply, suppliers are also asked to complete the Corporate Responsibility Self Assessment (CSRA).*

*After successful completion, Siemens suppliers receive the status "Ready for Business" (R4B).*
